

PLASTICS - RUBBER - COMPOSITES

Reliable Information for efficient Communication

Whatever your position in the Industry! If you're a processor, a mouldmaker, service, raw material or colorant supplier, machinery or equipment supplier, **Plastiques Flash Journal** represents **a highly efficient communication tool targeting the French-Speaking Plastics, Elastomers & Composites Industries**, with very reliable editorial information, a large International circulation, and affordable advertising rates considering its circulation of 6 000 copies per issue.

CIRCULATED IN FRANCE, BENELUX, SWITZERLAND, MAGHREB AND WEST-AFRICAN COUNTRIES, AND FRENCH-OWNED PROCESSING SITES OVER THE WORLD

Dedicated sections, News from the Branch, Sustainable Plastics Industry, Plasturgy, Mouldmaking, Raw Materials et Equipement & Processes, in every issues of the Journal, presenting the essential news in the processing, mouldmaking, raw material and machinery & equipment sectors.

Targeted topics to address certain specific sectors, such as Composites, Polyurethanes, Moulds, etc.

Some practical tools : directories & tables of French mouldmakers, recyclers, all ranges of TPE available, the French raw material distributors, ancillary equipment, injection-moulding machines, hot runner systems, welding machines, etc... **also available on our website.**

46 x 116mm module: 360 €

Discounts: -10% for 2 issues,
-15% for 3, -25% for 4 issues

Since 1965, **Plastiques Flash** has been linking all plastics, rubber and composites industry branches, informing mould makers and processors regarding their raw material, equipment and service suppliers, but also presenting their own innovations, industrial achievements and investments to their contracting partners.

• Readership

BY JOB POSITION

BY MARKETS

BY ACTIVITIES

Plastiques Flash Journal's readership represents all branches of the Plastics, Rubber & Elastomers, and Composites Industries targeting key decisional job positions: general & technical management, development, industrialisation and purchasing services.

• Geographical Circulation

- France (and overseas territories) : 80.1%
- European Union: 5.3%
- French-Speaking Africa (including Maghreb): 10.2%
- Rest of the World: 4.4%

Plastiques Flash Journal is circulated in all French-speaking countries and French-owned sites settled all around the world. (circulation 6 000 copies per issue - estimated readership : 35,000/40,000)
